

Parking Map

See the map below for locations of public parking areas.

There is handicapped-accessible parking on each level of the 2nd St. & Jay St. parking deck and access to the skywalk (from the ramp to our building) on the 3rd level. If you utilize the skywalk you will still need to exit the building and re-enter in the main lobby to have your tickets scanned.

We have a 15-minute parking bay in front of our building. You may park there to assist a member of your party into the building, if necessary, and then park your car once they are safely inside.
